

## Company Profile

«Professional Solutions» Department

**Professional Solutions**

## History & Facts

We are Russian owned company with over 22 years of wholesale IT distribution experience.

The company was founded in 1992 with a goal to discover new IT products and develop projects in the Russian market, involving perspective brands with the newest, most unique and demanded IT products.

Many famous brands in Russia got their successful start in cooperation with our distribution company.

Our company was the first IT distributor in Russia to promote and distribute innovation platforms . We have been the largest and most successful IT distributor in Russia of LG Electronics, MSI, Cooler Master, FSP USP Power Solutions, etc.

We are official distributor of Matrox Graphics since 2003.

## Professional Solutions Department

Our company's «Professional Solutions» Department focuses on distribution products and providing services for the following fields:

- Digital Signage;
- Video Display Wall;
- Media Creation;
- Security;
- Financial Trading;
- Control Room Workstations.

We promote Matrox multi display graphics solutions on the Russian market:

- Video Wall Products;
- Multi-display Software;
- Graphics Cards;
- Video over IP;
- KVM Extenders;
- Graphics eXpansion;
- Thin Computing Solutions.

We provide services of configuration selection of the future video wall controller.

We are official partner of LG Commercial Display:

- Large format Displays;
- Video Walls.

## Brand Development & Advertising

One of our most important distinguishing features is our highly qualified staff. At each stage of cooperation, we offer professional support in the form of technical consultation on the selection of appropriate products.

We are aimed to communicate the company's message, deliver brand and product messages to the target consumers in Russia.

In order to attract the attention of 100% target audience to Matrox we use the following tools of promotion :

- Personal Sales;
- Promotion at Russian Trade Shows, Exhibitions and Forums;
- Internet Promotion & Advertising.

We have created a unique Russian web resource about Matrox - [www.pro-matrox.ru](http://www.pro-matrox.ru).

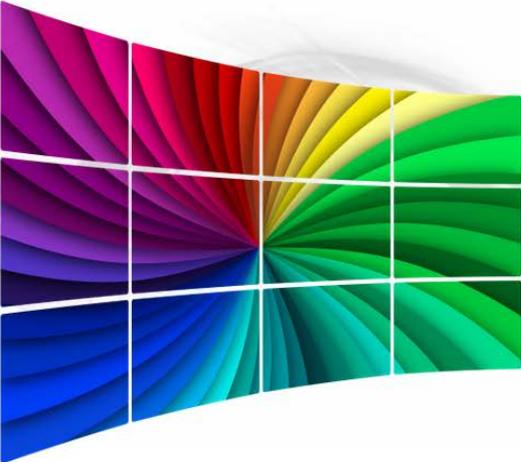

The concept of our Internet Project is to be a unique information resource for the professionals of visualization industry. There are tables of compliance, news about new products and new projects, technical data, possibility to get any technical support and consultations, etc.
